

## #8200 1mil Clear PET Over-Lam Film

1mil gloss polyester film (PET) with a clear permanent acrylic pressure sensitive (PS) adhesive, mounted on a paper liner. The film is dimensionally stable making it ideally suited for cold mounting on any JetComp media to build up film thickness or even out gloss. Does not stretch like vinyl's.

### Features

- Works on all JetComp Films
- Optically Clear
- Permanent adhesive
- Uniform gloss
- Dimensionally stable

### Applications

- Building film thickness
- Protective layer over printed images

### Available Sizes

- 24" wide x 100' #8200-24-100
- 52" wide x 100' #8200-52-100

## #8201 1mil Matte PET Over-Lam Film

1mil soft touch matte polyester (PET) with a clear permanent acrylic pressure sensitive (PS) adhesive, mounted on a paper liner. The film is dimensionally stable making it ideally suited to cold mount on any JetComp film to build up film thickness. Does not stretch like vinyls.

### Features

- Works on all JetComp Films
- Soft Touch Matte
- Permanent adhesive
- Dimensionally stable

### Applications

- Building film thickness
- Protective layer over printed images

### Available Sizes

- 24" wide x 100' #8201-24-100
- 52" wide x 100' #8201-52-100
